Any defense my attorneys have scrambled together was without my knowledge this whole time they've been my attorneys. If possible to relieve one or both of them without delaying trying again. That's what I want to do. The fact of the matter is what happen June 1, 2009 was not due to mental disease or defect as I have said before. But to the government's current war on Islam. As my other Muslims brothers in previous and recently attacks on U.S troops, namely Nidal Hasan, Hassan Akbar and recently Anil Uka wasn't illness but rather religious obligation. Even though I lied and told arresting officers that I "blacked out" due to a video I seen online the night before, and that I wasn't affiliated with any overseas groups. The fact of the matter as I stated before there were previous operations carried out prior to June 1, 2009 and the ^{operations} ~~operations~~ that were carried out were directed by Al-Qaida in the Arabian Peninsula commanders I met in jail in Yemen. I lied initially only to protect them from prosecution and more torture that's beening done by the PSO - (Political Security Organization) in Yemen were I was. So in all I'm unhappy with my defense for trial and defense attorneys I want to dismiss Clarence Ferguson and Patrick Conca and represent myself. and I will be offering no defense.

because this case should be in federal or military court anyway.
So in my eyes it's a sham trial set up only
to make sure I'm handed down a death sentence.
In which I'm ready and willing to accept without
a doubt.
