Wheat Crops.—The Franklin, (Pa.) Repository, says the present appearance of the wheat fields in that county fully confirm the fears expressed by it, some time since, that the wheat crop would be light the coming harvest. It is now generally supposed that they will not be more than half an average crop in that meighborhood.

ARKANSAS ADMITTED!!!

'After our paper of this day had gone to press, we received, by express from Helena, the gratifying intelligence that Arkansas is now a SOVEREIGN STATE OF THE AMERICAN UNION! The bill passed its third rending in the House on the even-ing of the 13th June, as will be seen from the following extract from the National Intelligencer, of the 14th inst. :

Yesterday, the bills which have passed the Senate, for the admis-sion of the States of Michigan and Arkansas into the Union being again the special order of the day in the House of Representatives, occupied the whole day. The former of these bills was ordered to a third reading about four o'clock; and the latter about six oclock. After which, the bills were read a third time and passed. Both bills having passed without amendment, have no need of being returned to the Senate, and, being known to be acceptable to the Pre sident, they may be already con sidered as laws of the land.
