The majority of Governor Lowe's present Republican Governor of California, at his election, was 19,732. Heigh has been elected by a majority of about 7, which shows a gain on the part of the Democrats, since the last election, of 30,000 votes. This is an amazing change. A tide of such a change in other States will be sufficient to revolutionize them.

General Coust's offense, for which he is to be court-martialed, is leaving Fort Wallace for Fort Harker, where his wife was staying, and where the cholera prevailed.

Sunday morning a battalion of four hundred soldiers arrived at Omaha, en route for the Plains. Before starting they broke open a warehouse, and stole in the hands of drunken and insolent. The officers were as bad as the men. Canned oysters and fruit boxes also suffered.

It is reported that Austria intends to follow the example of Italy, and sell the property of the Roman Catholic Church in Austria, to pay the national debt with the proceeds.

The celebrated Francis Deak, who is the real king of Hungary, is in Paris, during the session of the Hungarian diet at Pesth, he has to content himself with two cheap rooms on the fourth floor of the principal hotel in that city.

Gen. R. E. Lee and Joseph E. Johnston called on the president and Gen. Grant on Tuesday, reporting on their paroles as demanded.

A Democratic mass meeting was held in Baltimore a few nights ago to ratify the new constitution of Maryland. From 15,000 to 20,000 persons were in attendance.

Another effort is about to be made in North Carolina to enforce the process of the United States Court relative to the debt which General Sickles regarded as in violation of order No. 10. It is understood that General Canby will repeat the order in question.

The National Intelligencer indignantly denies that Senator Rossen had written a letter avowing that he now favors impeachment.

A method of making use of fowls, recently devised in France, is said to be of great agricultural value. An old omnibus is fitted up with nest-boxes and perches, and it is proposed that such a machine should be kept on every farm well filled with fowls, and should be transferred every day to the spot where the most active farming operations are being carried on.
